

A leading brand of  AFG

COLUMN RADIATORS. ROBUST AND SO VERSATILE.

Heating. Cooling. Ventilating.

right to the point 

HOW TO PROVIDE QUALITY RIGHT TO THE POINT?

More than 60 years ago, the founders of Arbonia had one aim in mind: Providing fellow humans with "warming" solutions. But today our aim is much broader. Arbonia is a brand for heat requirements and fulfils highest expectations in public and business buildings. But we still adhere to the high standards of our founders: Customer support and solutions that are right to the point. What does this precisely mean? That's simple: We comply with supply and date arrangements in every detail. Starting with high-quality packaging as important component of the Arbonia standard of quality. The processing quality and the long

service life of our products have been convincing our customers for years now and are conform with the high requirements of currently valid regulations and standards. Individual customer service and highest possible flexibility of form and colour design are for us a matter of course. Our design expertise shows this, being acknowledged constantly by many awards. We at Arbonia develop all of this consistently and with passion – to provide you with precisely the room temperature solution that you need.

Flexible and safe:
The main application range
of our column radiators

Wall

ABSOLUTELY UNIQUE: ARBONIA QUALITY.

When manufacturing our products, we have one thing especially in mind: consistent quality assurance and product optimisation. Using state-of-the-art manufacturing plants and our long-term experience, we can consistently provide high product quality. Thus we are pioneers in this product environment.

Production / Manufacturing

- Maximum individuality
- State-of-the-art manufacturing plants
- High manufacturing capacity
- High energy efficiency

Products

- Reliability and long service life
- Highest surface quality
- Appealing visual effect
- Innovative solutions
- Customer-specific versions

Packaging and transport

- Optimum protection for corners, surfaces and connections
- Comfortable handling
- Transport safety
- Sustainable and environmentally safe disposal

Installation

- Easy and fast
- Systems tuned to the product
- Flexible fixing options
- High safety

Acknowledged quality

Our company and our products are tested and certified by independent institutions. These are for example:

- Uncompromising quality assurance system in accordance with DIN EN ISO 9001:2008
- Responsible environmental management in accordance with DIN EN ISO 14001:2004
- Energy management system in accordance with DIN EN ISO 50001:2011

COMPREHENSIVE AND COMPETENT: ARBONIA SERVICE.

We advice and support you in all your needs, from planning and ordering to realisation and implementation. Our highly ambitious employees offer you comprehensive service that fulfil highest demands.

Consultation and logistics

From indoor climate planning to implementation: You can count on the competence of our technical advisors – as well as on our precise logistics. For us delivery reliability means that we deliver precisely at the agreed place and time.

Awards

Arbonia convinces: Our high design expertise and innovation show this, being regularly acknowledged with highly popular awards in the sector. We are pleased with this, of course, and for you this is a good orientation.

Warranty and safety

Committed to quality: We are consistently committed to the premium quality of our products.

Online Service

Comfortable service for you: our EDP solutions make life a bit easier for you. Visit us online on our website www.arbonia.com

HERE, FIRST-CLASS HEAT DISTRIBUTION IS STANDARD: STANDARD COLUMN RADIATORS.

With our standard column radiators, you have absolute design freedom: we offer a large range of models and different dimensions. Thanks to the ideal ratio of radiant heat and convection, they are not only extremely powerful, but also very comfortable.

- 5 different depths
- Clear form
- High accident safety
- Easy to clean due to rounded corners and edges

Versions

6 columns

- Depths: 65 - 225 mm
- Heights: 190-3000 mm
- Lengths: 270 - 2700 mm
- Operating pressure: 10 bar
- Test pressure: 13 bar
- Max. operating temperature: 110°C
- Version with built-in valve with factory-preset kv value

➤ For the technical data of our standard column radiators, see page 14.

DEVELOPED FOR DEMANDING HYGIENE REQUIREMENTS: SANO RADIATORS.

With spacings increased by 20 mm, our Sano radiators are especially hygienic and easy to clean, thus satisfying the demanding hygiene requirements of hospitals, nursing homes and sanatoriums.

- Operating pressure: 10 bar
- Test pressure: 13 bar
- Max. operating temperature: 110°C

MODERNISE IN NO TIME: CAMBIOTHERM® REPLACEMENT RADIATORS.

Our Cambiotherm® replacement radiators are the perfect choice for steel and cast steel radiators that are to be exchanged. Their open connections (4 x ½") allow a high replacement flexibility and they are installed in just a few little steps.

- Column radiator with special hub distance
- No work or cost intensive changes on pipe system necessary

Cambiotherm® Stock programme

For an even quicker replacement our models are available in the stock programme.

- Available with 2 hub distances and in 30 sizes
- Ventilation and drain plug included in scope of delivery

RADIATOR AND USEFUL BENCH ALL IN ONE: BENCH RADIATORS.

Arbonia bench radiators with their horizontal arrangement of elements or standard radiators as a bench represent a convincing solution by providing a practical additional function in the form of a seat or storage surface. Moreover, the vertical version is available angled or curved.

Versions

4 columns

5 columns

6 columns

- Depths: 145 - 225 mm
- Heights: 180-315 mm (height of column radiator)
- Height with brackets (adjustable): 565-710 mm
- Lengths: 1200-3000 mm
- Operating pressure: 10 bar
- Test pressure: 13 bar
- Max. operating temperature: 110°C

ADAPT PERFECTLY TO YOUR PLANS: COLUMN RADIATOR SPECIAL SOLUTIONS.

With the column radiator special solutions from Arbonia you have maximum planning flexibility: thanks to a wide range of different forms, the column radiators fit almost into any room situation.

Room divider installation

- Feet welded on at factory
- Extension of the outer rounding of the element
- Adjustable to room height using special height of column radiator

Curved version

- The outer 3 elements cannot be bent in each case
- Please provide a drawing with dimensions or template with your order
- Minimum length: 12 elements (540 mm)

Angled version

- The limbs must be coupled together on site
- A complete delivery is only possible in consultation with the factory
- Please provide a drawing with dimensions or template with your order

INFINITELY DIVERSE: OUR COLOURS.

Whether gentle turquoise, strong yellow or modern grey: With our products you can set colourful accents. In the colour that you want: Our wide range of colours leaves no wishes unfulfilled.

HIGHEST REQUIREMENTS MET: FIXING TECHNOLOGY ACC. TO VDI 6036.

High load-bearing capacity, optimum stability and maximum safety: the fixing technology of our radiators is constructed using our expert knowledge based on decades of experience. All in accordance with the VDI 6036 guideline by the Association of German Engineers. This ensures for our customers not only an perfect unit of radiator, fixing and material,

but also a higher legal protection. VDI 6036 supports you in dimensioning and selecting the suitable fixing of radiators in accordance with the stipulations of the Product Safety Law and our fixings all comply with this law. Right to the point.

Absolute conformity with VDI 6036

If you see the VDI 6036 logo, you know that Arbonia complies with highest safety requirements.

FOR COMPREHENSIVE SAFETY: INNOVATIVE FIXING TECHNOLOGY.

Our diverse fixing systems can be flexibly combined. In addition, they can be installed quick and easily and provide maximum safety.

- Ideally matched visually
- Outstanding price-performance ratio thanks to fewer brackets and less installation work
- In-house development and testing in accordance with VDI 6036
- Can be used immediately
- Brackets available in radiator colour

Quick mounting bracket

- Easy to adjust
- Good ergonomics during installation
- Integrated lift and shift restraint

Wall bracket with holder

- High load-bearing capacity
- Dehinging safety devices and shift restraints in design as necessary
- Clamps around the hub in the lower area

Clamping bracket fixed / variable

- Appealing visual effect
- Easy to install: Insert and snap closed
- Dehinging safety device for third parties poorly accessible

Built into wall bracket

- Higher load-bearing capacity thanks to new built-into-wall bracket
- Built-into-wall console with hexagonal profile for adjustment
- Robust bracket sleeve

Wall bracket short

- Simple, angled design
- Considerably greater load-bearing capacity
- For column radiators in combination with clamp holders

Wall bracket variable

- Wide range of wall distances with only 3 types: 35-100 mm
- Easy to adjust
- For column radiators in combination with clamp holders

Clamp mounting

- Suitable for short wall bracket
- No slipping thanks to friction lining inside
- Safe interlocking clamping thanks to swivel holder made of steel

Soil stand bracket

- Robust pipe 60 x 10 mm
- For high requirements
- Non-tilting
- Non-dehinging thanks to steel beams
